

2017 Deer Hunters

Assist Us With Our CWD Surveillance

As the disease continues to spread, the ongoing Chronic Wasting Disease Surveillance program for 2017 is targeting 39 wildlife management units (WMUs).

Mandatory submission of all deer heads is **REQUIRED** from WMUs 102, 116, 118, 119, 124, 138, 142, 144, 148, 150, 151, 152, 156, 158, 160, 162, 163, 164, 166, 200, 202, 203, 204, **206, 208, 228, 230, 232, 234, 236, 238, 240, 242, 254, 256, 258, 500, 728, and 730** for CWD testing. (**bold numbers NEW for 2017**)

Also, please submit deer heads from three WMUs of Special Concern (250, 252, 260). These units will be mandatory in 2018.

Precise location of each kill is required, either GPS or Sec/Twp/Rng, in addition to the WMU.

Our **CWD-labelling system** provides a unique identification number for each head submitted. Heads should be kept frozen and dropped off at any Fish and Wildlife office or, during rifle seasons, at any of the 24-hr freezers identified in the following list. Check page 13 of the 2017 *Alberta Guide to Hunting Regulations* for office phone numbers. Call ahead to check office hours. Green CWD labels and instructions are available when you submit the deer head.

RESULTS:

When your results are available, a message will be sent to the email address in your AlbertaRELM account.

For more information contact your local Fish and Wildlife office or Dr. Margo Pybus 780-427-3462 – for toll-free, dial 310-0000 first or visit aep.alberta.ca. Follow us on Twitter @AB_EP and Facebook at My Wild Alberta.
